

Pet History Information

What is your pet's current injury?

Have you seen a veterinarian for this injury?

How long has it been affecting your pet?

Is the injury improving, worsening, or not changing with time?

What is your pet's current diet? How much is your pet eating?

Does your pet receive treats? What kind?

Does your pet have food sensitiveness/allergies?

Is your pet on any medications? What are the doses?

Is your pet on any supplements? What are the doses?

How active is your pet?

What are your goals for physical rehabilitation?

If your pet has any medical records from surgeons or previous veterinarians relating to the current injury, please have them with you for your first appointment. Please also have the information of your general practice veterinarian and any veterinarian that you saw regarding the injury.
